Power Spectral Density of Line Code

Super-heterodyne Receiver

Youssef Mohammed Ibrahim Sayed

Youssef Hisham Ahmed Hikel

Mina Wael Tanagho Fahmy

Nader Hany Maurice Wahib

Abdelrahaman Ahmed Kamal Atta

Faculty of Engineering

Department of Electronics and Communications

Course code : EECG232-17

Course name : Introduction to Communication Systems

Power Spectral Density of Line Code

Super-heterodyne Receiver

يوسف محمد ابراهيم سيد

Student ID : 91240892
Section : 4
BN : 34

يوسف هشام أحمد هيكل

Student ID : 91240907
Section : 4
BN : 36

مينا وائل تناغو فهمي

Student ID : 91240804
Section : 4
BN : XX

نادر هاني موريس وهيب

Student ID : 91240805
Section : 4
BN : XX

عبدالرحمن أحمد كمال عطا

Student ID : 91240410
Section : 4
BN : XX

Supervisor: Dr. Mohammed Nafea
Professor, Cairo University

Co-supervisor: ENG. Mohammed Khaled
Teacher Assistant, Cairo University

Faculty of Engineering

Department of Electronics and Communications

Course code : EECG232-17

Course name : Introduction to Communication Systems

Abstract

Contents

1 Problem Description 2

2 Introduction 3

3 Control Flags 4

4 Generation of Data 5

5 Creating the Unipolar Ensemble 6

6 Creating The Polar RZ Ensemble 7

7 Applying Random Initial Time Shifts 8

8 Preparing Cell Arrays For Analysis 9

9 Q1 Statistical Mean Calculation 10

10 Q2 Is the Process Stationary 11

11 Q3 Statistical Autocorrelation 12

12 Q4 Time Mean & Autocorrelation of One Waveform 13

13 Q5 Is the Random Process Ergodic 14

14 Plotting the PSD of the Ensemble 15

15 Q6 Signal Bandwidth 16

Appendices

A Appendix 18

Chapter 1

Problem Description

Chapter 2

Introduction

Chapter 3

Control Flags

Chapter 4

Generation of Data

Chapter 5

Creating the Unipolar Ensemble

Chapter 6

Creating The Polar RZ Ensemble

Chapter 7

Applying Random Initial Time Shifts

Chapter 8

Preparing Cell Arrays For Analysis

Chapter 9

Q1 Statistical Mean Calculation

Chapter 10

Q2 Is the Process Stationary

Chapter 11

Q3 Statistical Autocorrelation

Chapter 12

Q4 Time Mean & Autocorrelation of One Waveform

Chapter 13

Q5 Is the Random Process Ergodic

Chapter 14

Plotting the PSD of the Ensemble

Chapter 15

Q6 Signal Bandwidth
